Security Solutions That Suit You

Introduction

Blue Thistle Corporate Solutions (PTY) LTD was formed in 2010 and ever since we have been filling a void in the market with our tailor-made Risk Management, Strategic Planning and Guarding Services.

The diversified management of BTCS have backgrounds within the corporate sector including communication, high level security and Risk Management, giving us the advantage of knowing how customers react to situations and the level of service they require.

The core of our business is Risk Management and Strategic Planning. Our services vary from solutions which can be modified and adapted for all industries to tailor-made solutions for the application process required. With our core business being Risk Management, our solutions benefit the client when it comes to guarding as we have all the support and resources used by our corporate solutions department at our fingertips from ERM, Armored Vehicles, Products (covert and overt) etc.

About Blue Thistle Security Guarding Services

At Blue Thistle Corporate Solutions we believe that prevention is better than cure. With our qualified and registered guards we take a pro-active attitude to ensure that our valued customers are treated as individuals and not a number.

“The key to any successful defensive structure is a good offensive plan”.

Our guards are fully accredited with the Psira institution, and receive further in house training at Blue Thistle Corporate Solutions to ensure that our clients are supplied with A-grade quality security solutions at affordable prices, and to ensure that our top quality guards are equipped to handle any situation at hand.

Daily inspections, parades and operation debriefings are handled by the operations division. Management relations and reporting is an integral part of our guarding service, as are frequent site visits and client liaising from Blue Thistle Corporate Solutions head management and operations.

Some of our services:

ACCESS CONTROL
CONTROL ROOM OPERATION
STATIC GUARDING
TACTICAL UNIT
COVERT OPERATIONS

Access Control

Access Control is the most important and first line of defense against any unwanted entity. Our Security Guards are highly vigilant in this department and follow a strict code of monitoring any individual entering the premises and ensure that details provided are corresponding with the correct form of identification, whereafter all information will be recorded for security reasons.

Access Control options also vary to suit your needs and tailor-made services.

Control Room Management

With A grade staff and their capabilities to monitor and identify possible threats and trend analysis. Blue Thistle's control room operators take great pride in delivering top quality security services to our clients.

This is key in crime prevention and managing of daily procedures to ensure that our valued clients and their assets are protected at all times.

Tactical Unit

Our Tactical Unit specialize in:
First Aid, Crowd Control, Evacuations, High Risk Operations , Tactical Response

With only a few of our highly trained tactical squads capabilities listed above, Blue Thistle can insure that when they are deployed the objective will be dealt with accordingly. Our Tactical Units are highly skilled in this division.

Covert Operations

Equipped and trained to handle any covert operation needed to supply our clients with any type of information needed. This is a key strategy used to ensure that our clients are provided with the best suited tailor made security structure for their business or personal needs.

Other uses:

Investigations , Syndicate Prevention, Sting Operations, Trend Analysis.

2011-2014 Crime Stats

Studies Show

In the last 36 months the crime rate in South Africa increased with more than 15 % per anum. This is proof that no pro-active measures are in place to help prevent crime.

This is where Blue Thistle's Guarding Division takes great pride in having the suited security structure in place to prevent our clients from becoming a statistic. And enjoy life in a safe working and/or living environment.
